

RANCH-READY

MAINTAIN YOUR FARM OR RANCH a little more easily using these fencing and equipment options designed to help make your place safer for your animals. From arena fencing kits to post drivers to arena foot-ing conditioners—you'll be ready to make your facility top-notch.

Man Saver Post Driver from Rohrer Manufacturing

The Man Saver Post Driver is a pneumatic tool designed to eliminate back strain and increase efficiency while building fence. Starting at 26 pounds, the lightweight post driver is portable and runs off a small air compressor, making it ideal for remote locations. Thanks to a series of adapters, you can drive posts of almost any shape up to 3½ inches in diameter. Custom adapters are also available. The tool comes in five models to suit your needs and starts at \$450. mansaverpostdriver.com

Roto Harrow Arena Conditioner by Gibbs Manufacturing

The Roto Harrow can groom all kinds of surfaces, including arenas, pastures, driveways and more. This self-driven tool has a quick hookup. It will stir, mix and level as you go, with no negative pulling. Run the Roto Harrow tight on fences without fear of catching. It won't clog on grass or weeds, and the tool's unique rotating action means you only need to pass over the ground once to build air and loft, and pulverize clods in your footing. It comes in four sizes. rotoharrow.com

Pre-Packaged Arenas by Red River Arenas

Located in Coleman, Texas, Red River Arenas offers a variety of pre-packaged roundpen and riding arena fencing options in 5-foot and 6-foot heights, ranging from light-duty to heavy-duty strength. These packages are comprised of all-galvanized fencing and start at \$1,650 with free delivery. Purchase direct from redriverarenas.com or call 800-343-1026.

MAN SAVER POST DRIVER™

Starting
at \$450

A job worth doing is worth doing right. And now, easy. With Man Saver Post Driver, you can build fence in hours instead of days. The only multi-directional air-powered post driver in the industry, Man Saver drives most posts up to 3.5" in diameter 10 times faster than doing it by hand. So you can save time, money and ibuprofen.
